Dear Customer:

It is a pleasure to mail you again our latest Fall list of the finest bulbs and roots money can buy.

We have this year listed some of the new Novelties in Gladiolus which we imported for you from Holland. Those are very early flowering varieties, in fact bloom one month earlier than the American strains, and will bring, of course, top prices on any market.

As we only have 25,000 Bulbs available we advise you to order some of those early as they will be sold in a hurry.

Begonias and Gloxinias in the larger sizes are also very scarce this season, as reported from our Belgian growers.

Make your reservation early as many of the large size Gladiolus are very scarce and will be short on the end of the season.

Yours for more Business,
